ABOUT ME

I am very much interested in web development and programming with a passion towards the technology, who likes to create super cool applications and websites. I specialize in front-end web development. I love tech a lot and keep updating myself with new technologies and frameworks. I never hesitate to learn anything new.

ACADEMIC BACKGROUND

Sri Sairam Institute of Technology

BE. Computer Science and Engineering.
(2017-05 to current)

GPA: 7.769 | No backlogs
Computer Science Undergraduate.

PROJECTS

Solving Privacy and Security issues in Electronic Health Records (EHR) using Blockchain.

Poor EHR system design and improper use can cause errors that jeopardize the integrity of the information in the EHR. I have leveraged blockchain technology to transform the EHR systems and could be a solution for the above issues.
